

Cal Integrity Charter

Sample document for website download functionality - to be replaced by the final approved charter.

This is a temporary sample charter document. It is included only so the website download link is functional while the final Cal Integrity Charter is being prepared.

Purpose

Cal Integrity exists to support public-interest accountability, transparent verification, and evidence-based review of public-purpose energy and infrastructure programs.

Governance

The initiative is intended to operate with clear governance roles, documented decision practices, and appropriate separation between oversight work and commercial implementation activity.

Independence

Cal Integrity emphasizes independence, conflict-of-interest awareness, and transparent reporting so stakeholders can better understand program results and related risks.

Public Accountability

The work is focused on helping communities, boards, public agencies, contractors, and program administrators strengthen trust through clear records, measurable outcomes, and responsible stewardship.

Replacement Notice

Replace this sample file with the final approved Cal Integrity Charter at the same path: /documents/cal-integrity-charter.pdf.
